Re: Dockton Water Association SWSMP ID #19550; ODW #13-0317

Consistent with the Memorandum of Understanding between the Department of Health and the Department of Ecology, I reviewed portions of the draft Dockton Water Association Small Water System Management Plan.

Water Right Self Assessment Table

A review of the district's water rights shows the system holds sufficient instantaneous withdrawal and annual quantity to meet the needs of the potential 534 connections of the water association.

The Water Right Self Assessment (WRSA) does contain the following errors in the designation of the water rights;

<u>Number shown in the WRSA</u>	<u>Correct Number</u>
Water Right Claim 17023762	173023702
Water Right Certificate 5739	5383
Water Right Certificate 2537	6734

In addition, the association should provide the 6-year and 20-year forecast Water Right Self Assessment forms.

Thank you for the opportunity to review this project. Please contact me at (360) 407-6636 if you have questions regarding my review or need additional information.

Contact Water Resources Program staff at the Northwest Regional Office with any questions related to water rights.

Sincerely,

Don Davidson
